3 LEAKS WE FOUND (live-verified)

LEAK 1: Your B2B goldmine has no funnel 8,100+ workplaces and 150+ Brewing Bots - but no paid path for office admin/HR searching for tea vending. The highest-LTV line runs on organic reach only.
LEAK 2: 150+ stores with no radius campaigns App-first competitors buy hyperlocal inventory around their outlets while your stores rely on walk-by traffic - the cheapest walk-in channel is unused.
LEAK 3: Chai is a daily habit with no retargeting The highest-frequency category in F&B has no first-order → subscription/bulk flow and no WhatsApp opt-in, leaving the cheapest repeat revenue on the table.

3 QUICK WINS (14-DAY ROADMAP) → FIX LEAKS + LOWER CPA

DAY 1-5: Build the 'Book a Brewing Bot demo' funnel Landing page with cups/day calculator, install timeline, workplace photos and client logos - then Google search for 'office tea vending machine' + LinkedIn targeting admin/HR titles.
DAY 6-10: Give the top 25 stores each a radius campaign 3-5 km geo campaigns with store-specific creatives, a first-order offer and per-store measurement - prove the template, then scale city by city.
DAY 11-14: Start habit retargeting + WhatsApp 3-step flow (first order → bundle/subscription → gifting) with WhatsApp opt-in at checkout - chai is daily, so this is your cheapest repeat revenue.
